Prometheus & Atlas

 Olympians

Olympians and younger Titans

Titans and contemporaries

Primordial children

Primordials

Origin

Ancestry runs outwards from Chaos at the centre, one ring per generation.

Each box takes its own group's colour. An outline surrounds the children of one parent, drawn in that parent's group colour. Where two outlines overlap, the figures inside share both parents. Zeus, for example, sits where Cronus's outline (Earth & sky) overlaps Rhea's (Olympians).

Stacked cards are collectives. Leto, Maia, Metis, Semele and Clymene have no recorded parents here, so each sits in the same ring as their partner.
